1. Introduction

Proximity click™ is an accessory board in mikroBUS™ form factor. It’s a compact and easy solution for adding proximity sensor to your design. It features VCNL4010 proximity and ambient light sensor. Proximity click™ communicates with the target board microcontroller via mikroBUS™ I²C (SDA, SCL) and INT lines. The board is designed to use 3.3V power supply and 3.3V or 5V I/O voltage levels. LED diode (GREEN) indicates the presence of power supply.

2. Soldering the headers

Before using your click™ board, make sure to solder 1x8 male headers to both left and right side of the board. Two 1x8 male headers are included with the board in the package.

3. Plugging the board in

Once you have soldered the headers your board is ready to be placed into desired mikroBUS™ socket. Make sure to align the cut in the lower-right part of the board with the markings on the silkscreen at the mikroBUS™ socket. If all of the pins are aligned correctly, push the board all the way into the socket.

4. Essential features

Proximity click™ with it’s VCNL4010 IC combines an infrared emitter and PIN photodiode for proximity measurement with a range of up to 20cm. It can also be used as ambient light sensor. The VCNL4010 has a 16bit resolution which ensures excellent cross talk immunity. All these features make this board ideal for consumer and industrial applications, mobile phones, digital camera, tablet PC application and many more.
5. Proximity click™ Board Schematic

6. SMD Jumpers

There is one zero-ohm SMD jumper J1 used to select whether 3.3V or 5V I/O voltage level is used. Jumper J1 is soldered in 3.3V position by default.

7. Code Examples

Once you have done all the necessary preparations, it’s time to get your click™ board up and running. We have provided the examples for mikroC™, mikroBasic™ and mikroPascal™ compilers on our Libstock website. Just download them and you are ready to start.

8. Support

MikroElektronika offers Free Tech Support (www.mikroe.com/esupport) until the end of product lifetime, so if something goes wrong, we are ready and willing to help!
