

# WiFi Patch Adhesive Antenna Specification

**Model: DLWIFI-P1**

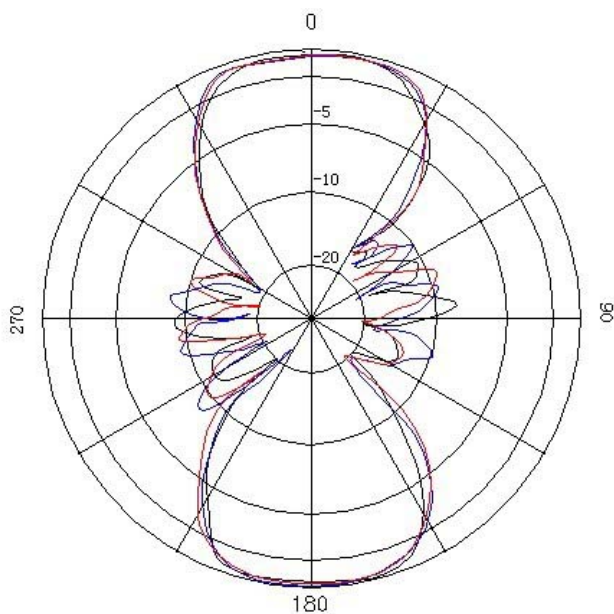

## Main Technical Specifications

Frequency Range	2400-2500MHz
Gain	3.5dBi
VSWR	≤1.5:1
Input Impedance	50ohm
Polarization Type	Vertical
Max Input power	50w
Antenna Size	115*21.5*5mm
Cable length	3m (Can be customize, like 1m, 2m, 5m etc.)
Cable Type	RG174 (Can be customize, like LMR100 etc.)
Connector Type	SMA straight male (Can be customize, like FME/MCX/MMCX/FAKR etc.)
Antenna Mounting	3M Sticking
Antenna Color	Black
Working Temperature	-45°C to +85°C
Storage Temperature	-45°C to +85°C

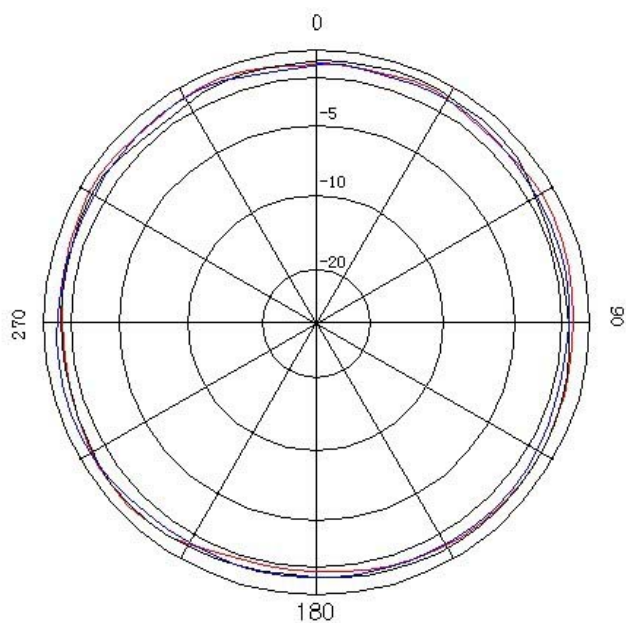

## Radiation Pattern

Vertical Pattern

Horizontal Pattern

- 2500MHz
- 2400MHz
- 2450MHz
